MONICA CRUZ

mcatcruz@gmail.com

Objective

Self-motivated individual with healthcare experience seeking a web developer position. Recently completed Code Tenderloin's Code Ramp and Code Ramp++ programs, which taught introductory to intermediate JavaScript.

Professional Accomplishments

Adaptability

- Migrated the clinical nutrition department to a new electronic health record system to consolidate medical software, which reduced time spent gathering client data.
- Managed the nutrition care for 120 patients and was the sole nutrition expert for two distinct healthcare teams.

Analytical

- Identified and diagnosed nutrition problems from clients' medical history and biochemical data.
- Streamlined weight tracking workflow which reduced entry errors.

Communication

- Prevented malnutrition by collaborating with the healthcare team on implementing appropriate nutrition interventions.
- Improved documentation accuracy, which prevented audits from state surveyors.
